Who we are? What we do!

Kang Yang originates from Taiwan and has an excellent reputation for the design and manufacture of standard and custom highly specialized plastic components.

We specialize in fasteners, circuit board hardware, wire routing products, clips, clamps and telecom accessories.

Other products which add to this vast array of components are silicon heat pads, EMC shielding products and PCB terminals.

Light up your business!

Kang Yang is a leading manufacturer of Light Pipes, LED holders and Lenses. Our array of LED hardware is constantly complemented by new designs resulting from customer requirements and market developments.

Our molded nylon **LED holders** are offered in straight and right angled versions. The LED holders offering comprise of both PCB mounting and front panel assembly.

Do you need Samples? Please ask us!

Do you need more information? Please call us!

We offer through-hole and locking pin options to enhance the board mounting strength. The interlocking designs serve as a lead forming fixture, uniformly aligning and elevating the LEDs in any color combination, style and function imaginable.

Light pipes are used mostly for visual status indication in situations where traditional indicators are too large or other space constraints exist. Typical applications can be found in Data Communications, Test & Measurement, Process Control, Medical and Handheld devices.

Our light pipes are molded from RoHS compliant UL94-V0 or V2 Water Clear Polycarbonate with a 35% oxygen index.

Custom designs !

Light pipes and LED holders come in a wide variety. Some applications need a special design. Kang Yang has the capability to manufacture custom solutions to meet your specific requirements. With access to the latest techniques we can turn your designs into reality without bothering you with high startup costs.
