(C) - This material is identical to the material with the same grade designation and properties as in E46667 and can be interchanged without additional testing of the end product.

(GG) - Denotes a global grade formulation previously in File E101766.

NOTE - Material designation may be followed by a color nomenclature consisting of either an alphanumeric or numerical/color combination.

ANSI/UL 94 small-scale test data does not pertain to building materials, furnishings and related contents. ANSI/UL 94 small-scale test data is intended solely for determining the flammability of plastic materials used in the components and parts of end-product devices and appliances, where the acceptability of the combination is determined by UL.
